

Type of integrating experience:

Application of Research Methodology

Description of integrating experience:

In this integrating experience, students learn how to propose the topics of research. The students also have the occasion to join in the lecturer's umbrella research. Journal and plagiarism topics are given by lecturer to prepare their students submitting their research to the journal account. Students have to arrange their own research proposal for bachelor thesis. At the end, they have to present their research proposal in the class.

Core /elective or optional

Core:

Application of Research Methodology (PNM496)

Number of SKS credits allocated	Student's workload in hours	Contact work hours	Self-study work hours
3 SKS	136	40	96

Learning competences / objectives:

On successful completion of this integrating experience students will be able to:

1. Decide the appropriate topic for students' research proposal
2. Manage the theoretical framework
3. Arrange the research proposal for bachelor thesis
4. Understand about submitting and making journal
5. Understand about plagiarism

Assessments used:

1. Presentation (30%)
2. Thesis Proposal (70%)

Assessment is grade by students' progress of making thesis proposal which includes writing a draft thesis proposal and presentation of it in every week. At the end of the practicum, the students have to collect their final thesis proposal as a final assignment.

Weeks required and place in academic calendar:	Number of weeks	Week number
Campus 08/2020 - 11/2020	16	01-16
