Core /elective or optional:

Elective:

Current Issues in Nutrition (BUN307)

Number of SKS credits allocated	Student's workload in hours	Contact work hours*	Self-study work hours
2 SKS	90.67	26.67	64

* includes lectures, seminars, face-to-face, assessments

Learning competences / objectives

On successful completion of this module students will be able to:

1. Find the latest issue in food and nutrition based on current literature
2. Perform critical analysis of various issues in food and nutrition in Indonesia and worldwide
3. Present one selected issue in a seminar.

Syllabus content. Brief overview of syllabus using bullet points.

- Enrichment of knowledge, training students' critical analysis of various issues of food and nutrition in Indonesia and worldwide
- Develop the topic of the bachelor thesis and hold a seminar

Module level timetable - indicate the timing of the teaching sessions from the upcoming teaching year:

Current Issues in Nutrition: 7th semester

Pedagogic/teaching methodology:

The lecturer will provide the classroom lecture and then followed by group discussion in which the students should discuss some issues related to the courses provided in the first

session. Group and individual presentation with the determined topics. Lecturer presented the teaching materials with LCD and whiteboard.
Independent learning hours includes assignment preparation and completion and self-directed study.

Assessments used:
There are three types of examination:
 1. Middle examination (35%)
 2. Final examination (35%)
 3. Assignment (30%)
 Each examination takes 100 minutes includes essays for middle examination and multiple choice questions and essays for final examination. The examination assesses the students' knowledge and understanding and all learning outcomes of the module. Type of both is take home test. Students' assignment is given by lecturer for organizing seminar about current issues in nutrition.
 As part of assignment, students will have to submit final report of the seminar related to current issues in nutrition. The grade for assignment will be based on the group report and individual contribution and active involvement in organizing the seminar.
