

Type of integrating experience:
Health Promotion in Institutions

Description of integrating experience:
 The students learn to apply health promotion concepts in an institutional setting, such as in the healthcare, educational, workplace and public place setting.

Core /elective or optional	Elective: Health Promotion in Institutions (EDM306)
----------------------------	--

Number of SKS credits allocated	Student's workload in hours	Contact work hours	Self-study work hours
3 SKS	136	40	96

Learning competences / objectives:
 On successful completion of this integrating experience students will be able to:

1. Define the problem appropriately
2. Determine the usefulness and limitations of data
3. Identify data appropriately and relevant as a source of information
4. Evaluate data integrity and comparability
5. Use ethical principals in data and information collecting process
6. Utilize qualitative and quantitative data collected in the institutions
7. Analyze and process data from the institutions
8. Explain the policy options clearly and concisely
9. Evaluate the institutions in accordance with the national regulations

Assessments used:
 Assessment consists of two parts:

1. Grading of the presentation (30%)
2. Students report their health promotion observation and evaluation in the institutions (hospital, school, and other institutions) (70%)

Weeks required and place in academic calendar:	Number of weeks	Week number
Campus and Out of campus 02/2020 - 05/2020	16	17-32
