*includes lectures, seminars, face-to-face, assessments

Learning competences / objectives
On successful completion of this module students will be able to:
1. Define the types of health promotion indicators
2. Define and interpret the concept of knowledge, attitude, and practice
3. Define the perception, motivation and self efficacy and their indicators
4. Define the health promoting policy and program
5. Define the theory of mapping intervention and analyze the health program based on it
6. Define the Dignan theory and analyze the health program based on it

Syllabus content. Brief overview of syllabus using bullet points.
Health Education and Promotion:
- The concept of health paradigm
- History of health development (Ottawa Charter)
- Basic, strategies, and settings of health promotion

Indicators and Measurements in Health Promotion:
- Definition of health and types of health promotion indicators
- Definition of knowledge, attitude, and practice and their assessment
- Definition of perception, motivation, self efficacy and their indicators

Health Promotion Program:
- Interpretation of health promotion and its policy
- Theory of mapping intervention
- Theory of Dignan

Module level timetable - indicate the timing of the teaching sessions from the previous and upcoming teaching year:
Health Education and Promotion: 07.00-09.00 a.m., Wednesday, 2nd semester
Indicators and Measurements in Health Promotion: 6th semester
Health Promotion Program: 6th semester

Pedagogic/teaching methodology:
Scheduled learning includes lectures, discussions about the actual real life cases, and seminars in groups for applying problem solving techniques to solve real life issues which are given by lecturer. During lecture in the classroom, the lecturer gives the didactic question to the students.
Lecturer presents the teaching materials with LCD and whiteboard. The students are divided into small groups. Each group has to discuss the topic determined by the lecturer and present the results to the class.
Independent learning includes hours engaged with essential reading, assignment preparation and completion and self-directed study. Students are provided with access to essential and supplementary learning via email or e-learning (AULA) and whiteboard.

Assessments used:
There are three types of examination:
1. Middle examination (40%)
2. Final examination (40%)
3. Structured assignment (20%)
Each examination takes 100 minutes includes essays. The examination assesses the students' knowledge and understanding and all learning outcomes of the module. Structured assignment is given by writing a paper and develop the media about spesific project then the students present it.
